Tampa Bay Machining Apprenticeship®

Machine Trades Industry Unites with Education

Offers added value and convenience

The TBMA® - Tampa Bay Machining Apprenticeship® GNJ and PTEC - Pinellas Technical Education Centers, Clearwater Campus, are pleased to offer a State Registered Precision Machining Apprenticeship program for your employees. The program is registered with the Florida Department of Education. Upon completion, your employees are issued a Certificate of **Completion of Apprenticeship**, which infers **Journeyman** status upon them.

Tuition Exempt

The most interesting aspect of this program is there is no tuition cost to either your business or your employee. **THAT'S RIGHT!!! No Tuition costs.** Your tax dollars at work!

As a participant in this outstanding program, you not only increase the skill levels of your employees, but

you also help to bring much needed state and federal education money into our community.

Four Trades to Choose From

There are currently 4 trades being offered for apprenticeship.

- Machinist
- Tool & Die Maker
- Mold Maker
- CNC Machinist

Industry Instructors

The instructors are seasoned journeymen who are currently working full-time in their respective trades.

Evening Classes

For your convenience, classes are offered Monday and Wednesday evenings, 4:30 – 8:30 pm.

New classes begin quarterly. Please call for the next start date.

Applicants must be 18 or older and have a high school diploma or GED. To be an apprentice you must be working in the trade. Minimum work experience is not required.

What an opportunity for new hires or your loyal employees.

Course Outlines

The course outlines for the 4 trades listed are designed and approved by the Tampa Bay Machining Apprenticeship® Committee, a group of local employers, making them current with the needs of your industry.

How do I Get Started?

Simply pick up the phone and call **(727) 538-7167 ext. 2062**, to see if your business qualifies.
